

To the parents of the students in Primary School

Subject: 1<sup>st</sup> TERM EVALUATION

We inform you that starting from this school year, Primary School will change the method of evaluation (OM 172 Dated 4<sup>th</sup> December 2020).

In the 1<sup>st</sup> term school report (pagellino), next to the school subject it will no longer be indicated the numerical mark in tenths, but a learning level according to the table below.

Table 1 – *Learning levels*

<b>Advanced:</b> the student can complete any kind of task related to known and unknown situations, using independently and continuously a variety of resources both provided by the teacher and received elsewhere .
<b>Intermediate:</b> the student can complete independently and continuously any kind of task related to known situations; the student finds a solution to tasks in unknown situations using the resources provided by the teacher or received elsewhere, but discontinuously and without a total independence.
<b>Basic:</b> the student can complete any kind of task only related to known situations and using the resources provided by the teacher, both independently but discontinuously, and not independently, but continuously.
<b>First-time acquisition:</b> the student completes any kind of task only related to known situations, only with the support of the teacher and only with the support of specially provided resources.

Best regards.

The Headmistress
